

**REMARKS**

This Amendment is made to place the specification and the claims to be in compliance with U.S. patent practice.

Amendments to the specification are made by way of a marked-up version of a substitute specification (attached). Also attached is a clean typed substitute specification incorporating the revisions in the marked-up version. Please replace the specification with the substitute specification.

Amendments to the drawings are made by way of a replacement sheet (attached.) Please replace the drawings with the replacement sheet.

***Rejection under 35 U.S.C. § 112***

Claims 1-28 have been rejected under 35 U.S.C. 112 as being indefinite. Claim 1 has been amended to reflect that the model for a pattern/design image of an extrusion profile to be produced in electronic form may be transmitted to the optical neuro-fuzzy structured computer/design image data bank in any appropriate data format.
